 11 Recent developing research has indicated that mifepristone alone is not always effective  
 12 in ending a pregnancy. It may be possible to avoid, to cease, or even to reverse the intended  
 13 effects of a chemical abortion using mifepristone if the second pill, misoprostol, has not been  
 14 taken. Please consult with a knowledgeable health care provider regarding the abortion pill  
 15 reversal or call the Abortion Pill Reversal Hotline at (877) 558-0333 or visit  
 16 <https://www.abortionpillreversal.com> as soon as possible.

 4 and irreversible physical impairment of a major bodily function, not including psychological  
 5 or emotional conditions.

6 **SECTION 5.** A penalty may not be assessed against the person upon whom an abortion  
 7 is performed or induced, or attempted to be performed or induced, in violation of section 2  
 8 or 4 of this 2025 Act.

9 **SECTION 6.** (1)(a) Except as provided in paragraph (b) of this subsection, the following  
 10 persons may maintain an action against the person who performed or induced an abortion,

 28 to disclosure.

29 (2) If the court determines that the person’s anonymity must be preserved, the court  
 30 shall issue orders to the parties, witnesses and counsel, direct the sealing of the record and  
 31 order exclusion from the courtroom of all persons who are not parties, witnesses or counsel.  
 32 The orders described in this subsection must be accompanied by written findings that explain  
 33 why the person’s anonymity must be preserved, why the orders are essential to that end,  
 34 how the orders are narrowly tailored to serve that interest and why no reasonable less-  
 35 restrictive alternative exists.

36 (3) If the person described in subsection (1) of this section does not consent to disclose  
 37 the person’s identity, any person other than a public official who brings an action under
