

Submitter: Susan Haywood

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB2164

We NEED to support HB2164 in order to be sure that meat from family farms can get to market in a timely manner.

Personally, I only eat meat that is grown with the minimum of additives (hormones/antibiotics) and that is produced locally.

Let's get that meat to market!

And let's pay attention to the practice of adding ractopamine prior to slaughter. It may make the meat have more muscle, but it is a carcinogen.

Thank you for reading my comments.
