

Submitter: Kenneth Lane

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I support this measure to prohibit DEQ from implementing these regulations on diesel trucks, farm tractors and other diesel propelled vehicles before January 1, 2027. Possibly also look at other alternatives to avoid putting an unnecessary burden on public, farmers, business, retired folks and others that use diesel vehicles.
