We are being regulated and mandated to death in Oregon. People who work depend on their diesel rigs to help them either get the job done or transportation. Not every one is a rich legislator that can afford to replace their rigs with inefficient and over priced vehicles. Why worry about trucks and such when you let millions of acres of trees burn every year and dont seem to realize just how much damage that does to air quality. But you cut back the grass seed growers from burning off their fields. This is a waste of time and resources that isnt going to help the working class people that pay your salaries.
