

Submitter: Donna Bleiler

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I SUPPORT HB 3119 because the state is not equipped for this adjustment, and every Oregonian will see the affects.

The original mandate is short sighted and the cost analyses was faulty not factoring in the impact to all aspects of living costs.

You have been elected to protect Oregonians, and that includes protection from your own corrupted and faulty policies. Step up and do better..
