

Submitter: Josie Alexander

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB867

I oppose SB 867. At first glance it appears to be a sensible bill about better safeguards around sexual abuse reporting. As you take a closer look, this bill is attempting to prevent School Choice student accounts from being used at religious sponsored schools. Oregon is a national embarrassment when it comes to education. If the goal is to actually teach children, then you should not be placing barriers in front of families who want to escape this failed system.
