

Submitter: Lynn Delorme
On Behalf Of: all school nurses
Committee: House Committee On Behavioral Health and Health
Care
Measure, Appointment or Topic: HB2948

Dear Behavioral Health and Healthcare Committee members,
My name is Lynn Delorme, and I am a Portland, Oregon school nurse assigned to three schools. I am in support of HB 2948. It is imperative to protect the integrity of clinical nursing practice in school settings by ensuring that only qualified RNs supervise clinical aspects of nursing care for students. For if HB 2948 is not enacted, this will put the quality and safety of nursing care for students in jeopardy and increase liability for districts.
Thank you for your consideration.
Professionally,
Lynn Delorme, RN, BSN, MPA: HA
