

Submitter: Chad Kernutt
On Behalf Of: WE THE PEOPLE
Committee: House Committee On Emergency Management, General
Government, and Veterans
Measure, Appointment or Topic: HB2200

My name is Chad Kernutt, I support a house hold of 5, and I urge you to please vote NO on HB-2200. These attacks on businesses, farmers, transport companies, cars and more all in the name of climate change and climate science (which has always been inaccurate by the way) is a fools errand and always ends up being an attack on the consumers and the economy. For starters the science is constantly changing and the forecast models are never panning out like these smarty pants scientists and philosophers say they will. Man is not changing the earth's atmosphere and causing freezing or warming through carbon emissions and usage of gasoline and natural gas despite what these geniuses say. The trees and plants actually need carbons/CO2/carbon dioxide to feed on and churn out oxygen. And God is in control of the weather. These attacks on businesses and farmers and we the people through tyrannical rules/laws/regulations do nothing but make Oregonians suffer from the consequences which attack our pockets and checkbooks from the runaway rising costs that hit us consumers due to the roll out of these stupid laws and ideas and our families pay the price when you geniuses tighten our finances and drain our bank accounts. Please stop this foolishness and the attacks on our lives, money, and the economy and vote NO on HB-2200. Thank you.

Sincerely,
Chad Kernutt
Albany, Oregon
