

Submitter: Jeremy Salmon
On Behalf Of:
Committee: House Committee On Behavioral Health and Health
Care
Measure, Appointment or Topic: HB2143

Hello, my name is Jeremy Salmon. I'm a 20-year Oregon resident and professional in both skilled trades and tech. I am writing in support of House Bill 2143.

I have personally benefited from acupuncture treatments in the last 2 years. I had shoulder and tendon strain that affected my ability to work. Acupuncture therapy delivered at local low-cost clinic helped me through this process.

I am writing in support of this bill to allow for more practitioners access to provide this therapy. There is a massive medical cost crisis right now, and this therapy is inexpensive and effective.

Please pass House Bill 2143.

Sincerely,

Jeremy Salmon
