

Submitter: ROSEMARY Johnson

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3190

Special Assessment is an important tool especially for commercial properties. It is an incentive to restore valuable historic resources and save both the cultural history of an area as well as being environmentally conscientious. I have seen many projects that were successful additions to our community that may not have been completed without this and other financial aids for restoration. I urge you to approve HB 3190 to reintroduce the Special Assessment tax program.
