

Written Testimony Template for HB 2948

Submitted to the Oregon House Committee on January 28, 2025

Subject: Testimony in Support of House Bill 2948

Chair Nosse, Vice Chairs Javadi and Nelson, and Members of the Committee:

My name is Angela Billman, and I am a registered nurse in the K-12 school setting in Independence, Oregon for Central School District 13J. I have been a nurse for 29, with 17 years dedicated to school nursing. I am writing to express my strong support for **HB 2948**, which ensures that only a registered nurse may supervise a nurse in a school setting concerning nursing practice.

As a school nurse, I play a critical role in ensuring the health, safety, and well-being of students with diverse medical needs. The complexity of my work requires adherence to professional nursing standards and clinical judgment. **HB 2948 recognizes the importance of having qualified supervision specific to nursing practice.** This distinction is essential for the following reasons:

- 1. Clinical Expertise and Patient Safety**

Nursing practice includes performing assessments, developing care plans, and managing medical emergencies. These tasks require clinical expertise that can only be effectively evaluated and supervised by another registered nurse. An administrator or non-nursing supervisor may not have the medical knowledge necessary to provide meaningful oversight in these areas. Allowing registered nurses to supervise school nurses ensures that clinical practices align with the Oregon Nurse Practice Act (ORS 678.010).

- 2. Clear Distinction Between Nursing and Administrative Functions**

HB 2948 clarifies the boundaries between clinical and non-clinical supervision. Administrators are vital to supporting the broader functions of a school nurse, such as scheduling and policy adherence. However, when it comes to decisions about patient care, only a registered nurse possesses the training to provide appropriate guidance and evaluation. This bill ensures that nurses are not placed in compromising situations where individuals evaluate their clinical judgment without a medical background.

- 3. Support for Professional Growth and Accountability**

Registered nurses are uniquely qualified to mentor and guide other nurses in clinical settings, fostering professional growth while maintaining accountability. HB 2948 creates a structure that empowers school nurses to perform their duties effectively, knowing they are supported by peers who understand the profession's nuances.

4. **Alignment with Best Practices in Healthcare**

Healthcare settings outside of schools consistently rely on registered nurses to supervise other nurses. Extending this standard to the school environment ensures that Oregon students receive high-quality nursing care and that the nurses providing this care are supported by appropriate clinical oversight.

Personal Story:

Over the past 17 years, I have frequently encountered situations where my professional decision-making and adherence to best practices have been questioned. On several occasions, I've been pressured to alter health plans or shorten emergency medical training to better fit the needs of the school environment rather than the needs of the students. Having non-medically trained staff attempt to dictate how I provide medical care has resulted in some precarious situations, particularly in critical moments involving student safety. Whether administering emergency care for anaphylaxis or managing insulin administration, these are high-stakes medical situations that cannot be handled appropriately without the necessary medical education and expertise in supervision.

In conclusion, HB 2948 provides critical safeguards for students and school nurses by ensuring clinical supervision is conducted by those with the appropriate training and expertise. I urge you to support this bill and help Oregon schools continue to provide safe, effective, and professional nursing care to our students.

Thank you for considering my testimony. I am happy to answer any questions or provide additional insights based on my experience.

Respectfully,

Angela Billman BSN, RN

Lead District Nurse

WESD/Central School District 13J
