SB223

I OPPOSE THIS RECOGNITION AS A POLITICAL MOVE.

Where are the "Where As" describing the need for this bill? This is a waste of money and time. Is it a punishment on schools accepting seismic grants? It certainly isn't recognition that Peter Courtney would cherish. You don't force recognition, and it sets a president that no one wants. Peter Courtney did some good things, but so did many others, so it turns into using his recognition for a political statement, which is against school board guidelines.
