I OPPOSE [HB 2805].

"...the department may not adopt a rule under this section to establish a license fee that is more than three percent higher than the license fee charged during the preceding year for a food establishment of the same type and having the same volume of gross sales.

When adopting a rule establishing a license fee, notwithstanding the three percent limit, the department may round the fee amount to the next higher whole dollar amount."

This "fee" increase is nothing more than an unreasonable, burdensome and oppressive tax that needs to be shelved for all time.

To incorporate and additional "rounding-up" privilege at the whim of government is an additional slap to the taxpayer's face.
