

Submitter: Laurie Matthews

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3190

Oregon is far behind other states in enacting tools that can help with the financial pressures of reusing historic buildings which can help downtowns thrive, provide more options for housing, and preserve some of the unique fabric of Oregon. Reusing buildings also limits the waste that goes into landfills. This bill will help that process and is a win-win for many reasons.
