On Behalf Of: Mr Oregon OPPOSES SB 867
Committee: Senate Committee On Education
Measure, Appointment or Topic: SB867

I OPOSE [SB 867].

There is an increasing need to overhaul the administration of the department of Education.

As the "WOKE" and "DEI" philosophies are finally being firmly and irreversibly rejected by the Voters, DOE seems to continue to hoist indoctrination of youth in school education programs.

The money follows the parents decision on where they send their kids to school.

For those parents who cannot afford private schooling for their heirs apparent, Public Schools should not be compelled to indoctrinate children i as to sexual acts, political symbols such as (Pride and Black Lives Matter Flags in the classrooms) and religion.

Since ex-President Biden intentionally allowed an invasion of illegal aliens into our nation, school districts should not be under any pressures to not expending taxpayer dollars to educate children of the illegal aliens.
