

Submitter: Rolando Hernandez
On Behalf Of: Beeler Excavation LLC
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB830

We have direct experience of the great need for grant and loan programs that support the community when it comes to failed septic systems in southern oregon. Septic systems have a limited effective lifespan since these are biological systems. A replacement system can cost a home owner between \$16k to \$30k and in some cases \$35k.

Many families do not have the resources to come up with that kind of money and this is an emergency situation most of the time. An environmental risk and a risk to human health.

We support this bill and encourage your vote in support as well.
