

Submitter: Judy Walton

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3190

I write in support of HB 3190 and urge you to pass this bill. It's urgent that the legislature restore this excellent program that invests in Oregon's historic properties and ensures they will be properly renovated and maintained. Historic commercial buildings give our towns and cities so much of their unique character, yet without government support, market forces will lead to their disappearance. As an additional bonus, HB 3190 will boost housing production in vacant and under-used upper floors of commercial buildings. This would help dozens of communities across our state. Thank you for caring about Oregon's heritage and its current and future legacy!
