

Dear Senate Committee Members,

I'm a longtime Oregonian who relies on my electric wheelchair everyday to engage in everyday life. I'm writing to voice my support for SB 550. The right to repair medically necessary equipment is vital to my and so many others ability to live, work, and recreate, while offering the competitive and more expansive repair service environment needed to keep our equipment functioning offers jobs in service to the broader community good. A true win-win.

Thank you for your consideration and affirmative vote on SB 550.
