Committee: House Committee On Behavioral Health and Health  
Care  
Measure, Appointment or Topic: HB2948

I support house bill HB2948. As a school nurse in Multnomah County it has been incredibly important to have a nurse as my supervisor. When I go to her with questions or situations she is working out of the same basis of understanding and her experiences as a nurse to help answers those questions. She knows what it means to work as nurse and the legal responsibilities that has.
