Measure, Appointment or Topic: HB2948

I strongly support this measure because my experiences as a school nurse have shown me how vital it is to be supervised by a registered nurse as opposed to someone without a nursing degree. My supervisor (a registered nurse) has provided me with support and guidance through her expertise as a nurse. Many times the principals/administrators don't understand the reason behind our decisions and they have tried to make decisions that have unhealthy and dangerous consequences but my nurse supervisor has stepped in to offer her agreement to my nursing decisions.
