

Submitter: Erin Lewis

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB2948

As a school nurse working in Multnomah County, I fully support this incredibly important bill. I have seen firsthand the negative consequences that can occur from a non-nursing administrator making decisions about nursing procedures that directly affect student safety. I am asking you to strongly consider the very real, and serious, consequences of not passing this legislation, and the negative impact it will truly have on patients and students across this state.
