

Submitter: Mary Hayden

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3190

I support HB 3190 because it could help spur increased housing production, specifically in

vacant upper floors of commercial buildings. This could also help struggling vacant or underutilized properties in every community in our state.

Astoria's Merwyn Hotel created 40 units of affordable and work force housing.

Salem's Fork

Forty project created a food hub and reestablished new housing units on the second floor.

These are just two projects who enrolled in the former program before it sunset.

Please help bring useful life and housing opportunities to our old and underutilized buildings.

Vote for HB 3190

Thanks!
