On Behalf Of: Mr Oregon OPPOSES SB 69
Committee: Senate Committee On Labor and Business
Measure, Appointment or Topic: SB69

I OPPOSE [SB 69].

The Employment Department should have been studying the "...job-protected leave from work..." from its inception. Why now?

Is it because the "...job-protected leave from work..." has been a failed program from the very beginning and has gotten worse over the years. That's my read.

It is my opinion the "...job-protected leave from work..." funding mechanism did not adequately address the popularity of the welfare program. Businesses should not have to be compelled to support the "...job-protected leave from work..." welfare scheme.

It is also my opinion the entire "...job-protected leave from work..." program be shuttered.
