

Submitter: Brett Murray

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

How did it come this far? Please use logic and realize that this path is detrimental in so many ways, but most importantly, unobtainable. The lack of infrastructure, prohibitive cost, and inefficiency of implementing these regulations is obvious. For the sake of Oregon and our future, please do not implement these regulations.
