

Submitter: Ruth Rubelt
On Behalf Of: Jerry and Ruth Rubelt - ranchers
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB3119

I, Ruth Rubelt, on behalf of myself and my husband, Jerry Rubelt, stand in favor of HB 3119 prohibiting the DEQ from implementing or enforcing the ADVANCED Clean Trucks regulation before January 1st 2027.

Diesel trucks and pickups are used all over this state to deliver goods of all kinds including groceries, medicines and everyday essentials. Any disruption of the use of diesel will cause undue problems for everyone in the state. Farmers and ranchers depend on diesel vehicles that are big and tough enough to withstand hauling their harvested food products to the processing plants.

Sincerely,
Jerry and Ruth Rubelt
