

Submitter: Monique Bochsler

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I Monique Bochsler support HB 3119. I believe we must start any work. Our federal government is cutting these programs. If Oregon starts before it suppose too, and we have no money coming federally. That this will impact Oregonians poorly. Oregon has suffered and we do not need to Tax Oregonians more. We need policy that help the average Oregonians. As a resident and a PCP for precinct 56, I strongly support HB3119
