Re: Support for HB 3119

We write in support of HB 3119 to delay the DEQ implementing or enforcing the Advanced Clean Truck regulations. After working for more than 30 years, raising two wonderful daughters and putting them through college, my wife and I were finally able to achieve a life-long dream of purchasing a Mercedes Sprinter Van, which is a clean-running diesel vehicle. Our van travels throughout Oregon and beyond for camping, hiking, skiing, snowshoeing, kayaking and music festivals are our primary recreational activities. Banning the use of diesel will deprive us of realizing our dreams after a lifetime of hard work, is short sighted and will cause great harm to us as voters and citizens of this great state. We oppose banning diesel vehicles and support HB 3119.

Very truly yours,

David & Nicole Zehntbauer
