

Submitter: Chip Salmon  
On Behalf Of: JayWilliams Septic Service  
Committee: Senate Committee On Natural Resources and  
Wildfire  
Measure, Appointment or Topic: SB830

To whom it may concern,

If Government Agencies are truly concerned about the environment and protection of the ground water why wouldn't they unanimously support passage of this bill? We are the best stewards of protecting the future of our precious water supply and Government Agencies should do everything in their power to make septic systems easier and more affordable to the community who relies on them. My area is very dependent on septic systems and this would be a huge benefit to all of my clients. Thank you and please rush acceptance of aid through the passage of this Act SB830.
