

Submitter: Jacob Brown

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

Please support this house bill in opposing more regulations and banning diesel engines as specified which are the gears of the lifeblood in our economy. Oregon cannot persist without diesel power in our work trucks and haulers, and any measure than bans them is pushing folly on our State. Do the right thing and stand by the People.
