

Submitter: glenna hayes

On Behalf Of:

Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or
Topic: HB2143

Dear Chair Representative Nosse, Vice-Chair Representative Javadi and other committee members. My name is Glenna Hayes and I am writing in today in support of HB2143. This bill would expand the kinds of treatments needed for Oregonians. Acupuncture is a helpful treatment in so many settings. I have had acupuncture to help with stress, to help repair my nerves after a bad car accident, and to help manage my self care. I hope you see the benefits and the rounding support for this bill to get it passed. Thank you for your time
