

Submitter: Zachary Flegel

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I'm in favor of HB 3119 because, as a life time resident of Oregon and a family farmer, I know that the technology is not here to implement electric trucks. We need more time to research the economic impact this will have on small farmers and businesses being forced to buy electric.
