Subject: Support for the Sustainable City Year Program at the University of Oregon

Dear Members of the Oregon House Higher Education Committee,

On behalf of the University of Oregon, I am writing to express our strong support for the Sustainable City Year Program (SCYP) at the University of Oregon. As someone who has collaborated with and contributed to this outstanding initiative, I have seen firsthand the impact SCYP has on both my students and communities across the state.

SCYP helps make it easier for me to integrate project-based learning into the classroom, which not only helps them learn material and a range of 'soft' professional skills, but their work genuinely helps the communities we partner with. My classes focus on public budgeting, and student involvement in hands on projects with Oregon cities helps them better learn concepts while applying their knowledge and creative ideas to help support revenue challenges in Oregon Cities. Over the last 7 years, students in my courses have worked on projects all over the state in Redmond, Sisters, Hermiston, Salem, Gresham, Eugene, Tigard, Tualatin, and for Lane Transit District. When students know their efforts may help an actual Oregon community, they work harder – and as a result they learn more and the community benefits more! SCYP adds value to students, communities, and us teaching at the University level.

A key strength of SCYP is its collaborative, statewide approach. Our partnership with the program has demonstrated the power of universities working together to serve Oregon communities, bringing diverse perspectives and expertise to the table. SCYP's success hinges on its ability to unite institutions of higher education, local governments, and civic organizations in pursuit of common goals. This cross-institutional effort not only enriches the student experience but also ensures that cities and towns throughout Oregon, regardless of size or resources, can benefit from forward-thinking solutions tailored to their unique needs.

We urge you to support sustainable and on-going funding for the Sustainable City Year Program and recognize it as an invaluable asset to Oregon's public universities and the communities we serve. Investment in SCYP will help ensure that students across the state gain practical experience, cities receive actionable solutions, and Oregon remains a leader in innovative university-community partnerships.
