Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

Chair Lively and members of the House Committee on Climate, Energy, and Environment:

I'm writing to extend support for a thorough and transparent review of the significant impacts, rules, and regulations imposed on Oregon business, families, and workers as enforced under the Advanced Clean Trucks. We are very concerned by the economic impacts repeatedly expressed by small businesses across the state that were largely dismissed during the rulemaking process. To mitigate those economic risks and to avoid further economic injury to those businesses and workers directly and indirectly impacted, we support delaying the implementation and enforcement of the rules and regulations proposed in HB3119.
