

Submitter: Gary Shaff
On Behalf Of: self
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3233

It is a short-coming of HB 3233 that it doesn't require ODOT to also work with California. It is odd that the bill focuses only on states and nations to our northern border. Why the limitation? The bill, if adopted, would mean that the rail transportation needs of Southern and Eastern Oregon would be ignored.
