

Submitter: Celeste Basket

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

Don't delay Oregon's Clean Truck standards! Companies are already making these changes due to market demand and standards in place in California and elsewhere. We are all impacted by air quality and cancer-causing emissions. The health of our citizens and of our environment demands that truck manufacturers take action now!

Thank you,

Celeste Basket
