

Submitter: Juliet Hyams

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

Please oh please do more to protect us from diesel emissions. Who knows what new pollutants we'll be exposed to under Donald Trump dismantling the EPA. Oregon needs to protect its residents now more than ever. I'm getting into middle age and need to protect my health and that of others. And while you're at it, how about a statewide no idling law? Thanks.
