

Submitter: Jared Beeler

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB812

My family has a dairy farm in Tillamook county and has been using our land owner permits to control the elk population for many years. The elk cause a lot of damage to our pastures, fences, corn crops, and eating grass that feeds our cows. We have put high fences around the real problem areas and they still find a way to get in and cause damage. I feel the landowner permit is a very important part of keeping them out and protecting our property.
