

Submitter: Leonard Foltz

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3173

The Oregon Flora Program at Oregon State University is a valuable resource that documents the diversity of our native flora and presents the information in a searchable database that we use quite regularly at our nursery business helping customers, writing plant descriptions for our labels and website entries, and personal enjoyment while hiking or planning an outing into our wonderful Oregon natural areas. This program represents thousands of hours from so many dedicated people that it deserves to have a source of stable funding to survive and thrive.
