

Submitter: Laurel Hines

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2980

Please vote YES on HB 2980 the Wildlife Stewardship Bill. Oregon needs to promote coexistence with our wildlife, avoid needless killing and endangering by improving wildlife educating of children and the public to avoid conflicts. Too much state money and far too many animal lives are wasted by killing that could be avoided by wiser practices. Oregon also needs to step up support of its rehabilitation centers for wildlife, which have to spend too much time trying to raise money and have too little funds to do they best job they can.
