

Submitter: Debra Bond
On Behalf Of: People in my precinct
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB3119

As a PCP for my area in Lebanon, Oregon, there are various people who use diesel trucks and vehicles. To replace these vehicles would be very expensive and would put many of them out of business. Farmers have diesel trucks so do construction workers and construction businesses, such as my immediate neighbor, when people are out of work, they don't have money to pay taxes and the government does not have money to operate. So as a PCP supporting the people in my area, I urgently Support and request that this bill be passed Which prohibits the department of environmental quality From implementing or enforcing Advanced clean trucks regulations Before January 1, 2027
