

Submitter: Sue Barnhart

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3170

All of us in the Eugene Springfield area had a huge scare on Labor Day of 2020 when wild fires spread rapidly due to high winds and almost made it to the Springfield/Eugene areas. Our neighbors up the Mckenzie had to flee for their lives and many lost everything. A wildfire, icestorm, flood or high wind storm can happen again. We must all be prepared and HB 3170 is needed to help in the aftermath of a horrendous climate change disaster. More will be coming.
