Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

This needs to not only be delayed but voted down permanently. It makes no sense at a time when all businesses are struggling, as proven by extended product availability wait times and businesses failing to survive, we would pass any law that would further harm them or close their doors. We are not California and don't want to be. Please don't pass this, Oregon and Oregonians are struggling, please don't increase our already too heavy burdens by further limiting our livability and survival.
