

Submitter: Loretta Johnson

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: HB3119

I previously submitted a testimony but misstated what I intended. I do want this bill to pass that would prohibit the DEQ from implementing the advanced clean truck regulations. This regulation is wrong, it's unnecessary and will hurt Oregon and Oregonians and the livelihood of businesses that are already struggling. WE DON'T WANT THIS REGULATION.
