

Submitter: Darrell Stepper

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I fully support HB 3119. As a small business owner in Eugene, I rely on our current transportation sector to be able to do business in Oregon. This bill would substantially and negatively affect the transportation industry and cause significant business reduction in Oregon. As a citizen of this community, I recognize our responsibility to continue to evaluate green technologies and work to reduce emissions. However, this regulation change is not the right path and will do far more harm than good since it starts forcing business owners to stop one form of transportation without offering an affordable or sustainable option. This is just bad business and nearsighted folly.
