On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB933

I support this bill because we can only pay attention to the data that we have. If we don't know (for instance) why students disengage and drop out of highschool, we won't know how to repair the problem. I have a hunch that students disengage in their education because they are not allowed to move at their rate and are not placed at the correct level. I am curious what the data will say when we start collecting it.
