Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

Dear representatives,

I strongly oppose HB 3119. We all know the massive negative changes we are all experiencing due to human-caused climate change. Now is not the time to turn back. We must step forward with difficult choices.

Do not roll back on our proposed and needed Clean Air Truck. We can't wait any longer. We have to change, and as our elected leaders, it stands to you to set the course for us all, no matter how uncomfortable those choices may be. Caving and capitulating to money and industry is worse.

Stand for the future, stand for all our futures.

Please do not cave to the money from industry to the detriment of our community, and the future of our planet.

Please oppose HB 3119.

Thanks,

Rosalie McDougall
