

Submitter: Michael OMalley

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3119

I am in support of house bill 3119.

Advanced clean truck regulations are not attainable and are not based in reality or common sense.

The implementation of the proposed clean truck rules will bankrupt small business throughout Oregon, limit

Competition to mega carriers , and drive transport costs through the roof.

Clean truck mandates will be one more financial

Burden placed on the taxpayers and residents of Oregon that they can not afford .

Please vote to pass HB 3119
