

Submitter: Michael Brainard

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2370

The Public Utility Commission keeps allowing utility companies to raise their energy rates and the people who suffer are the rate payers. Now the PUC wants to raise their rates on Utilities. Utilities will pass the increased rates on to rate payers. The increases must stop, its becoming very burdensome for people with fixed incomes.
Vote No on HB 2370
