

Submitter: Eric Butler

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or Topic: HB3173

As a restoration ecologist, teacher, and biodiversity advocate, Oregon Flora is an absolutely indispensable resource to my work. It is one of the best investments we can make in support of the Oregon Conservation Strategy, thoughtful land management, climate adaptation, nature education, and supporting the local restoration economy. Oregon Flora benefits nursery owners, foresters, land managers, scientists, conservation practitioners, biology teachers, gardeners, and enthusiasts--Oregonians urban and rural, professional and amateur, from every corner of the state. Please support this measure to help celebrate and protect Oregon's natural heritage.
