

Submitter: Margaret Dunklee

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3173

I have watched the bumblebee and butterfly populations steadily decrease in my yard for years, despite planting of year round native pollinator plants and no use of pesticides. I am also seeing bug-eating birds decline, such as flickers and robins. They need more help than people like me can provide. Please pass this bill!
